Subject: microsoft settlement

Get the gvt. off MSFT back. This is my retirement fund, the stock I bought over the years. I am not getting anything from the gvt. Get this thing settled so MSFT can go back to business as normal and help retired people like myself once again prosper. This is a joke that the gvt. is looking out for my interest in persecuting a great company like MSFT that built a better mousetrap. The competition is fierce out there.
